

Attorney Docket: WDUMR-022US
Application No.: 09/883,123
Title: PARSING SYSTEM

REMARKS

Of the non-withdrawn Claims, all stand rejected except Claim 41, which was allowable if amended to incorporate the features from its intervening claims.

The features of Claim 41, and its intervening claims 40 and 39, are incorporated into Claim 1. All remaining claims are withdrawn or cancelled.

Intervening Claim 40 was rejected as indefinite for using "any" in the phrase "including forms in **any** language, script or country." That term is deleted and the claim rewritten as: "including a form selected from a plurality of language and scripts from a plurality of countries."

Amended Claim 1 is believed allowable as previously indicated by the Examiner, and such allowance is respectfully requested.

If any additional fee is required, please charge Deposit Account Number 19-4330.

Respectfully submitted,

Date: 2/21/06
